

nutribullet® Cold Press Batch Juicer Quick Start Guide

ASSEMBLY

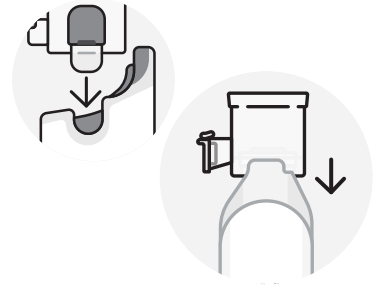

WARNING! READ ALL SAFETY WARNINGS AND INSTRUCTIONS IN THE USER GUIDE BEFORE OPERATING.

ALWAYS ENSURE THE JUICER IS TURNED OFF AFTER EACH USE. BEFORE DISASSEMBLING, MAKE SURE THE AUGER HAS STOPPED ROTATING AND THE MOTOR HAS COMPLETELY STOPPED.

NEVER SUBMERGE MOTOR BASE INTO WATER OR OTHER LIQUIDS.

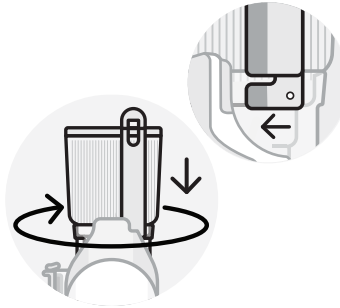

- 1 Place the **Motor Base** on a dry, level countertop. Ensure the **Dial** is in the "OFF" position, and the unit is unplugged.

- 2 Place the **Juicing Bowl** on top of the **Motor Base**. Align the spouts on the **Juicing Bowl** with the notches on the **Motor Base**. Press down firmly until securely in place.

- 3 Insert the **Auger** firmly into the center of the **Juicing Bowl**. Press down until it touches the bottom and locks into place. If the **Auger** is not placed properly, the **Hopper** will not close.

- 4 Place the **Hopper** over the **Juicing Bowl**. Twist the **Hopper** clockwise until the orange dot is no longer visible.

- 5 Place the **Juice Cup** under the **Juice Spout** and the **Pulp Cup** under the **Pulp Spout**.

NOTE: The juicer will not power on if the **Auger** is not in place, and if the **Lid** is not closed.

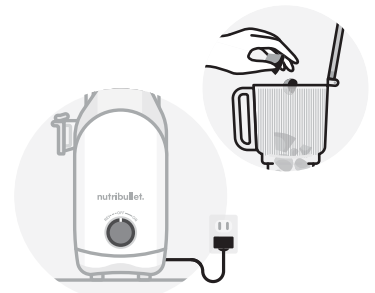

USAGE INSTRUCTIONS

WARNING! Never use hands / fingers or other tools to push food down from the Hopper into the Juicing Bowl.

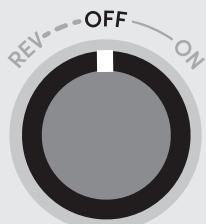

- 1 Gather all of your desired ingredients and wash them. Prepare the ingredients to be juiced by cutting, skinning, or removing the rind, stems, or stone seeds.

- 2 Plug the power cord into an outlet. Add ingredients to the **Hopper**.

CONTROL DIAL

OFF:

Off is the default position on the **Dial** for your juicer.

ON:

Turn the **Dial** to the right, and the machine will start juicing fruits and vegetables.

REVERSE:

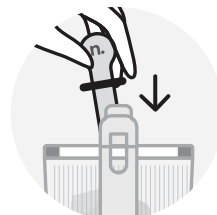

Turn the **Dial** to the left, **REVERSE** briefly spins the **Auger** in the opposite direction to release stuck ingredients and keep the juicing process flowing smoothly.

Scan here to access additional information and the full online User Guide for your nutribullet® Cold Press Batch Juicer.

- 3 Close the **Lid** and turn the **Dial** to the **ON** position to begin juicing.

- 4 Use the **2-in-1 Pusher & Scraper Tool** to push the food down into the **Juicing Bowl** and to scrape the sides if needed.

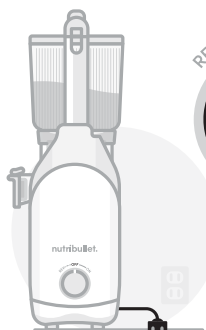

Note: You can continuously add food through the opening of the **Hopper**.

- 5 Juice will flow from the **Juicing Bowl** to the **Juice Spout**. Open the **Juice Spout Cover** to release the juice into the **Juice Cup**. The pulp is separated and will release into the **Pulp Cup**.

- 6 If the **Juice Bowl** becomes too full during juicing, open the **Juice Spout Cover** and continue juicing. Close the **Spout Cover** when you are done juicing.

- 7 Turn the juicer off by turning the **Dial** to the **OFF** position. Unplug the unit. Wait until the **Auger** comes to a complete stop before proceeding to open the **Hopper**.
